PROJECTS

Portfolio Website :

- This is my portfolio website which describes me the best.
- Technologies Used: Html, CSS, Javascript, Bootstrap.

Job Tracker and Lister

- This project maintains the track of applications like how many organizations you have applied through our website, this website is also able to suggest courses and you can also search for any job and internship openings in your interested field.
- Technologies Used: Html, CSS, Javascript, PHP, MYSQL, RESTFUL API.

Blog Website :

- Individual project where people can register and add their blogs to this website, others can read and add blogs too.
- Technologies Used: Html, CSS, PHP and MYSQL.

Online TC Portal :

- This is a portal used in Secure Meters organization. I have contributed in changing the user interface(UI) of the portal and also make the portal responsive.
- Resolved some issues that users faced on this portal in downloading the reports.
- Right now adding more to this as per user requirements.
- Technologies Used: Angular Framework (version 13), ASP.NET MVC, WebApi, Crystal Reports.
